From Sam Jobe:

USA Heritage Map

This moving map of the country, showing it from the beginning of the 13 states and going through the present. includes the acquisitions from England and Spain, the Slave states, the Free states, a segment on the Civil war, it includes some mentions of Central and South America, etc.

I know you'll enjoy this site, especially if you enjoy American history, but have forgotten a lot of what was learned in school. Turn on your sound, as the narration is a significant portion of the presentation. I hope you like this it is a great teaching tool for the kids.....
