

Let's Discuss It – November 21, 2009

Links Page

This page will be posted on the Let's Discuss It section of <http://www.tngs.org> since it's much easier to CLICK on a link than type some of these ridiculously long links!! The notice for this meeting contained several other links. I've not reproduced all of them here. That notice is also posted on the TNGS site.

Footnote has just added over 1.8 million records to a Native American Collection.

The following is an announcement from RootsMagic:

- RootsMagic Releases "RootsMagic Essentials"

We are excited to announce the release of RootsMagic Essentials, a free desktop genealogy program based on our award-winning RootsMagic 4 system. RootsMagic Essentials contains many core features found in our full RootsMagic program, and is the only completely free desktop genealogy software certified to work with the New FamilySearch system. For more information about RootsMagic Essentials, visit our blog at:

<http://blog.rootsmagic.com/?p=578>

*NOTE: Please note that RootsMagic Essentials is the unlocked version of the full RootsMagic program, so you can't run both RootsMagic Essentials and the full program at the same time. If you want to see a list of the differences between RootsMagic Essentials and the full version, please visit this page:

<http://rootsmagic.com/RootsMagic/Features.aspx>

Creating a free web page: <http://www.yola.com/>

Rootsweb and posting your genealogy data online:

<http://www.rootsweb.ancestry.com/>

Marvin's will update us on his slideshow project.

Changes to the DAR website: This is a site you REALLY want to visit. Click the link, just below the picture in the paragraph which describes the GRS system. The link says: Click image to Open GRS.

http://www.dar.org/library/online_research.cfm

Clicking the link will take you to this page:

http://216.36.105.133/DAR_Research/search/

Notice all the tabs. Try them all.

Here's a good walk through to using the DAR Genealogical Research System:
